## Testimonial

“The Amazing Math Wizards show was a real treat for our students! The students were engaged and captivated throughout the whole show. The performance was fun and educational. The math topics fit perfectly into our curriculum. The students loved the characters! We would enjoy having the Amazing Math Wizards return to our school in the future.”

Marly, Literacy Specialist, Rotella Interdistrict Magnet School, Waterbury, CT

## Description

The Amazing Math Wizards take young students on an exciting musical journey through Story Land where they explore math concepts based on Common Core Standards using puppets and lots of audience participation. For grades K-3 they delve into counting, shapes, addition, multiplication and place value. The program teaches life skills such as cooperative problem solving, learning from mistakes, and experimentation. For in person programs, students even get to try the harp.

The target audience for this program is grades 1-3.

## Objectives

The Amazing Math Wizards use story and music to make math fun for young students. Young students will learn math skills such as counting, operations, geometry, and place value. Older students will learn operations that involve fractions, exponents, and more advanced place value. The Amazing Math Wizards entertain while helping to teach these important skills.

Target Grade Levels: 1st - 3rd

## Pricing Information

\$885 single  
\$1,620 back to back
