Testimonial

"Having the opportunity to work with AFLCT has been truly beneficial; they've provided unique experiences that have positively impacted our students. Their professional artists are strong role-models who encouraged students to take risks, find their voices, and be confident young people. They assisted in the process of inspiring our students to discover their individual identities and be able to self-assuredly express and share their ideas and opinions."

Description

We take you on a mathematical, musical journey, playing traditional songs from around the globe, creating our own rhythms, taking turns leading and connecting music to counting, patterns and age/grade appropriate math concepts. Students also experience many positive life skills including respect, leadership, teamwork, cooperation, listening and communication skills as well as musical and cultural awareness.

Objectives

Students will:

- * Learn how musicians use counting and rhythmic math patterns
- * Experience hands on, multicultural music
- * Improve positive life skills like leadership, cooperation & listening

Pricing Information

\$515 one session
\$735 two sessions
\$955 three sessions

Video

Program Length

45 minutes
