Testimonial

"Having the opportunity to work with AFLCT has been truly beneficial; they've provided unique experiences that have positively impacted our students. Their professional artists are strong role-models who encouraged students to take risks, find their voices, and be confident young people. They assisted in the process of inspiring our students to discover their individual identities and be able to self-assuredly express and share their ideas and opinions."

Description

An art and life skills workshop that deals directly with life's constant changes through creative writing and visual arts. The life cycle of a butterfly is the inspiration behind the curriculum. Learning to adapt to change creatively and courageously is the mission.

In an ever-changing environment, it is important to learn how to navigate. The purpose of this workshop is to guide students through the process of creative expression, helping them to identify what works best for them—it is meant to give them creative life skills to walk away with.

Objectives

Students will learn and practice:

- Creative writing and attention to detail
- Connection and problem solving through research, storytelling & group discussion
- Collaboration through teamwork activities and assignments
- Diversity through a group project that will celebrate individuality, unity and differences
- Conceptual design through references and sketching
- Critical thinking through mapping their final projects working with mixed-media
